

SHINE

You came to this world and opened my eyes
I knew from the start you were gonna be fine, so fine
Yes so fine
You can do whatever the choice is yours
When you succeed I'll be there with applause my love
My darling love

Coz my baby can shine
Shine shine
My baby can shine
And giving it time
Time time
Everything will be alright

That sugary high keeps them running around
And smiling faces such a joy to be found
I know it'll be alright
But if you should fall I'll pick you right back up
Hold you closer with all of my love
My shining light

Coz my baby can shine
Shine shine
And giving it time
Time time
Everthing will be alright

Coz the future is yet to be known
The key to the worlds all yours just let yourself shine

Chorus out
